Mr. Luciano,

Thank you so much for coming to visit me during session! I hope you enjoyed your time in the capitol, and were able to learn or experience something new!

My job as a representative requires me to do exactly that: represent. There is nothing more valuable than being able to meet, talk to, and hear directly from the people that I have the honor of serving! Your willingness to stand up and voice your thoughts on Virginia policy is truly admirable, and I appreciate your time!

Again, thank you for coming to visit during session and your continued support of policy makers!

All my best,
